

## Press release

### Giroform DIGITAL media approved for Ricoh printing systems

*Bielefeld – May 6, 2011* Giroform DIGITAL carbonless media of specialty paper manufacturer Mitsubishi HiTec Paper Europe have been successfully tested on Ricoh printing systems and officially approved.

Giroform DIGITAL is the self-copy medium of choice for a perfect document management. It is suitable for the production of individual, personalized forms in groups and individual form sets with the highest security requirements. Giroform DIGITAL is the first carbonless paper, which was approved from the Rochester Institute of Technology in the United States (RIT), both for use on the HP Indigo system and on the KODAK NEXPRESS System.

After extensive testing, Ricoh now gave the European approval of Giroform Digital carbonless paper (CB 90 / CFB 86 / CF 90) for a given number of Ricoh printers:

**Colour**

PRO C900 + C900S  
PRO C720 + C720S  
PRO C901 + C901S

**B/W**

PRO 907 + 907EX  
PRO 1107 + 1107EX  
PRO 1357 + 1357EX

"We are proud that we have now received the official Ricoh approval for Giroform DIGITAL, after the approvals for HP Indigo and Kodak Nexpress already existed" said Carsten Homes, Head of Carbonless Paper Sales at Mitsubishi HiTec Paper Europe. "Giroform DIGITAL will soon be available in the presetting of the Ricoh systems - further evidence for the high quality of our product."
