

Press Release

Price increase for thermal papers and carbonless papers

Bielefeld – October 9, 2017

Mitsubishi HiTec Paper will be increasing prices for the whole THERMOSCRIPT thermal paper range as well as the GIROFORM carbonless paper range on January 1, 2018. The level of increase will vary depending on region and application. This is due to the further increased raw material and logistics costs.

Customers will be contacted directly by the Mitsubishi sales team.

Mitsubishi HiTec Paper Europe GmbH is a German subsidiary of Mitsubishi Paper Mills Ltd., Japan, one of the world's leading manufacturers of specialty paper. The roughly 700 employees at Mitsubishi HiTec Paper produce high-quality direct thermal, inkjet, carbonless, label and barrier papers at two tradition-rich locations in Bielefeld and Flensburg.

Each factory stands out for own base paper production, state-of-the-art production machinery, 6 different coating technologies and innovative coating recipes. Through its dense global sales network, Mitsubishi HiTec Paper supplies a full range of specialty papers featuring a modular system for every application and printing technology – and is a highly capable partner whenever customized coated paper solutions are required.
