

## Press Release

# Mitsubishi increases thermal paper prices from 1 July 2018

Bielefeld, 2 May 2018

Due to continuing rises in costs for pulp and other raw materials, especially leuco dye (ODB2), Mitsubishi HiTec Paper is increasing its prices for thermal paper for deliveries from 1 July 2018. Prices for the whole THERMOSCRIPT® thermal paper range will be increased by up to 10 % worldwide.

Customers will be contacted directly by a representative of the Mitsubishi sales team.

**Mitsubishi HiTec Paper Europe GmbH** is a German subsidiary of Mitsubishi Paper Mills Ltd., Japan, one of the world's leading manufacturers of specialty paper. The roughly 700 employees at Mitsubishi HiTec Paper produce high-quality direct thermal, inkjet, carbonless, label and barrier papers at two tradition-rich locations in Bielefeld and Flensburg.

Both factories stand out for own base paper production, state-of-the-art production machinery, six different coating technologies and innovative coating recipes. Through its dense global sales network, Mitsubishi HiTec Paper supplies a full range of specialty papers featuring a modular system for many applications and printing technologies – and is a highly capable partner whenever customized coated paper solutions are required.
