

Press Release

Mitsubishi HiTec Paper increases prices for coated speciality papers

Bielefeld – May 12, 2021

Mitsubishi HiTec Paper is forced to raise the prices for its coated specialty papers again. The reason for this is the recently continued rise in prices for energy and raw materials. The price adjustments of up to 10% apply to deliveries from June 1, 2021.

Customers are contacted directly by the Mitsubishi sales team.

Mitsubishi HiTec Paper Europe GmbH is a German subsidiary of Mitsubishi Paper Mills Ltd., Japan, one of the world's leading manufacturers of specialty paper. The roughly 770 employees at Mitsubishi HiTec Paper Europe produce high-quality direct thermal, inkjet, carbonless, label and barrier papers for flexible packaging at two tradition-rich locations in Bielefeld and Flensburg. Each factory stands out for own base paper production, state-of-the-art production machinery and innovative coating technologies. Through its dense global sales network, Mitsubishi HiTec Paper Europe supplies a full range of specialty papers for many applications and printing technologies – and is a highly capable partner whenever customized coated paper solutions are required.
