

Energy surcharge**October 6, 2021**

Dear valued customers,

Natural gas prices have risen by around 350% in the last few months. There has never been such a sharp rise in gas prices for a longer period of time. Prices are at an all-time high, and there is no end in sight to the unpredictable surge.

As a result of this an energy surcharge of 60 EUR per tonne for our entire range is essential so that we can continue to be available to you as a reliable supplier of high-quality coated speciality papers. The surcharge is valid for worldwide deliveries of our whole product range (*thermoscript, jetscript, giroform, supercote, barricote*) from October 6, 2021.

Your sales representative will be happy to answer any further questions you may have.

Yours sincerely,

Mitsubishi HiTec Paper Europe GmbH
