

Press Release

Mitsubishi HiTec Paper increases prices for the entire range of specialty papers

Bielefeld – October 28, 2021

Mitsubishi HiTec Paper is forced to increase prices by up to 14% for deliveries from January 1, 2022 for the entire range of specialty papers (*thermoscript*, *jetscript*, *giroform*, *supercote*, *barricote*).

The price increases are inevitable due to the inexorable rise in costs for energy, chemicals and logistics. Customers are contacted directly by the Mitsubishi sales team.

Mitsubishi HiTec Paper Europe GmbH is a German subsidiary of Mitsubishi Paper Mills Ltd., Japan, one of the world's leading manufacturers of specialty paper. The roughly 770 employees at Mitsubishi HiTec Paper Europe produce high-quality direct thermal, inkjet, carbonless, label and barrier papers for flexible packaging at two tradition-rich locations in Bielefeld and Flensburg. Each factory stands out for own base paper production, state-of-the-art production machinery and innovative coating technologies. Through its dense global sales network, Mitsubishi HiTec Paper Europe supplies a full range of specialty papers for many applications and printing technologies – and is a highly capable partner whenever customized coated paper solutions are required.
