

Press Release

Price increase at Mitsubishi HiTec Paper

Bielefeld – December 5, 2022

Mitsubishi HiTec Paper is increasing prices for its entire range of coated speciality papers (*thermoscript*[®], *jetscript*[®], *giroform*[®], *supercote*[®], *barricote*[®]) worldwide by 7 to 9% for deliveries from 1 February 2023.

The price adjustments are necessary to cushion the inflationary cost increases in the chemical, pulp and logistics segments.

Customers will be contacted directly by the Mitsubishi sales team.

Mitsubishi HiTec Paper Europe GmbH is a German subsidiary of Mitsubishi Paper Mills Ltd., Japan, one of the world's leading manufacturers of specialty paper. The roughly 730 employees at Mitsubishi HiTec Paper Europe produce high-quality direct thermal, inkjet, carbonless, label and barrier papers for flexible packaging at two tradition-rich locations in Bielefeld and Flensburg. Each factory stands out for own base paper production, state-of-the-art production machinery and innovative coating technologies. Through its dense global sales network, Mitsubishi HiTec Paper Europe supplies a full range of specialty papers for many applications and printing technologies – and is a highly capable partner whenever customized coated paper solutions are required.
