

Press Release

Price adjustment for thermoscript® thermal papers

Bielefeld – November 29, 2023

In order to counteract the continuing tense situation on the raw material markets, Mitsubishi HiTec Paper is forced to adjust the prices for thermoscript thermal papers again. For this reason, prices will be increased individually depending on the region and application as of 1 January 2024.

Thermoscript customers will of course be contacted directly by the Mitsubishi sales team for personal advice.

Mitsubishi HiTec Paper Europe GmbH is a German subsidiary of Mitsubishi Paper Mills Ltd., Japan, one of the world's leading manufacturers of specialty paper, and produces high-quality direct thermal, inkjet, carbonless and barrier papers for flexible packaging. The company stands out for own base paper production, state-of-the-art production machinery and innovative coating technologies. Through its dense global sales network, Mitsubishi HiTec Paper Europe supplies a full range of specialty papers for many applications and printing technologies – and is a highly capable partner whenever customized coated paper solutions are required.
