

# Mitsubishi HiTec Paper: HiTec papers for hi-tech digital print systems

Mitsubishi HiTec Paper has the solution for a vast range of digital printing applications, with customers being able to choose from a variety of coatings.

The rapid development of modern digital printing is constantly creating new applications. The trend towards individual and personalised customer approach continues. The demands on print quality are high, customer needs are challenging. To achieve outstanding print results it is essential to choose the right paper.

Mitsubishi HiTec Paper supplies a wide range of high-performance coated speciality papers for all modern hi-tech digital print systems, for a variety of applications and technologies.

*Reliable carbonless paper for the digital production of individualised forms*

Whether for high-speed inkjet printing, dry toner-based laser printing or hybrid printing; HP Indigo or Memjet, transactional or transpromo print, direct mail, envelope printing or publishing; whether admission tickets, lottery tickets, vouchers, carbonless forms or face paper for labelling of self-adhesive constructions, linerless or glue applied labels: Mitsubishi HiTec Paper has the solution.

Mitsubishi HiTec Paper can choose between six different coating technologies to fit the needs of any coating – functional coatings, protective or diverse barrier coatings. By using the state-of-

the-art curtain coater method, particularly precise, consistent and highly effective coatings are possible. Security features, integrated in the coating or the base paper can add special value to the final product.

**Highlights:**

- Thermal paper THERMOSCRIPT I Series and EM Series for HP Indigo
- Inkjet paper JETSCRIPT for all high-speed inkjet systems
- Carbonless papers GIROFORM DIGITAL and GIROFORM DIGITAL LIGHT
- High-gloss label paper SUPERCOTE for HP Indigo (with primer)

Mitsubishi Hi Tec Paper now turns its attention to drupa 2016, which runs from 31st May until 10th June in Düsseldorf. Drupa is the leading international trade fair for print and cross media solutions and its slogan 'Touch the Future' highlights the focus on innovation and new concepts in paper, print and allied industries. Mitsubishi HiTec Paper welcomes all visitors to their stand in Hall 8b / D24.

**Mitsubishi HiTec Paper stands for:**

- Many years of experience and expertise in paper making
- State-of-the-art coating technology
- German-Japanese R&D of the highest level
- High innovative power
- Extensive product range
- Worldwide sales network
- Excellent technical service
- Made in Germany
