* recommended running direction: long grain

** mandatory running direction: long grain

BSS = Business Solution System (office-laser printer / print, scan, copy, b/w + colour)

PPS = Production Print Systems (commercial printers, publishers, internal departments and production printing)

Due to the large number of digital printing systems, this list can only represent a small selection, without claim to completeness. **We always recommend a test print before application. For this purpose, we will gladly send you a free trial pack.**
